RMC Heavy Duty Cap Grinders are ...

... versatile

... more affordable

RMC Cap Grinders are rugged cast iron frame, hardworking machines that are designed to substantially reduce cap cutting time and labor costs.

Available in either 220volt single or three phase, the **RMC-70** will deliver years of dependable and productive cap grinding service to any size shop for a variety of both gas and diesel engines.

The unique angling table allows for cutting caps with tapered sides without having to use shims or bearing shells.
